

New York Medicaid Guidance for At-Home COVID-19 Testing Coverage Update

Implementation of adjudication coding for at-home testing coverage for most New York Medicaid Managed Care Plan Sponsors was completed by January 17, 2022.

Providers receiving a reject message (e.g., reject code: 70 - NDC not covered, etc.) on COVID-19 at-home testing claims filed prior to January 17, 2022, should re-submit rejected claims after January 17, 2022.

If the Provider receives <<Reject 40 - Pharmacy Not Contracted With Plan/Processor On Date Of Service>>, submit a value of '12 - DME Replacement Indicator' in the Submission Clarification Code (NCPDP field # 42Ø-DK) to override the reject.

The New York Department of Health (DOH) has issued updated guidance to the NYS Medicaid coverage of COVID-19 diagnostic and screening tests with "at-home" sample collection and no member cost share.

Provider Alert

A fiscal order is **no longer** required for the first eight (8) tests per month. Two (2) OTC tests per claim, with no refills, can be submitted with a limit of two (2) tests per week. Additional tests may be covered with a fiscal order (a request written by a NY Medicaid-Enrolled Provider to provide nonprescription drugs or medical/surgical supplies electronically prescribed or written on an Official NYS Prescription form).

In accordance with 42 C.F.R. § 447.512(b), pharmacies must provide a U&C Price when submitting pharmacy claims for prescription and OTC (nonprescription) items. U&C is defined as the lowest price charged to the general public after all applicable discounts, including promotional discounts and discounted prices associated with loyalty programs.

Reminder:

When submitting the quantity of tests, the quantity should be reflective of the number of individual tests. If a 2-pack test kit is dispensed, submit the quantity of '2' in the Quantity Dispensed field (NCPDP field # 442-E7).
