

## Invalid ICD-10-CM Diagnosis Codes are Expiring

### Improving Specificity in ICD-10-CM Diagnosis Coding

Healthfirst is updating our ICD-10-CM diagnosis code set to meet the specificity requirements established by the Centers for Medicare & Medicaid Services (CMS).

#### What providers need to know:

- Per [ICD-10-CM Official Guidelines for Coding and Reporting](#), diagnosis codes must be used and reported to the highest level of specificity documented in the medical record.
- Invalid codes are those that do not meet CMS' specificity requirements and were rendered inactive between 2015 and 2022.
- Healthfirst implemented a grace period for providers as they adopted ICD-10-CM coding. As such, claims that included invalid codes may have been approved.
- Effective **December 1, 2023**, invalid codes will expire, and claims that include them will be rejected.

Please view the chart on the following pages for a complete list of invalid diagnosis codes that will expire on December 1.
