

## 2022–2023 Seasonal Influenza Vaccine Codes

Based on the June 2022 guidance from the Centers for Disease Control and Prevention (CDC), the below CPT influenza vaccine codes reflect updates to the recommendations on the use of seasonal influenza vaccines in the United States from the Advisory Committee on Immunization Practices (ACIP). Healthfirst's benefit configurations have been updated to include this full range of vaccines. We encourage providers to follow these recommendations. For more details, visit [here](#).

Additionally, the Vaccines for Children (VFC) program provides all routine vaccines for eligible children under age 19 at no cost to participating healthcare providers. To learn more about the program, visit the CDC's [website](#). To view the VFC influenza vaccine list, visit [here](#).
