Is the residential address provided above a community-based setting?	☐ Yes	□ No
Does the individual want to live in this setting/ at this address?	☐ Yes	□ No

#### PART 2: INDIVIDUAL NARRATIVE & GOALS

#### A. Individual Narrative

The individual narrative should include a brief formulation of the NYS Eligibility Assessment, including the individual's diagnosis. Describe the individual's characteristics, skills, strengths, preferences, and behavioral health barriers and needs. Also include the individual's living arrangements, cultural traditions, and social relationships. Clearly document the individual's valued life roles.

<sup>\*</sup>Items marked with an asterisk (\*) minimally required for a Level of Service Determination for BH HCBS

#### B. Individual's Life Role Goal Statement(s)

The Individual's Life Role Goal is a personalized goal related to how the individual wants to live, work, learn, or socialize. An individual may have more than one life role goal. Write the goal statement using the individual's language. The "Desired Outcomes" should clearly state what will be achieved in the Individualized Service Environment, as documented in Part 3 of this Plan of Care.

Instructions for Care Manager/ Recovery Coordinator: This form should be reviewed and updated at least annually, in conjunction with the review of the Plan of Care. It should also be reviewed and revised following any significant life event.

The purpose of this Back-Up Plan is to help you in the event of an emergency situation or if a regularly scheduled support/service is unavailable.

In the event of an emergency, call 911 right away.

It is important to talk to your service providers, including your HCBS providers, about their availability and scheduling. Having a back-up plan means you'll know what to do and who to call if your provider can't meet with you.
